

Apaches.

This image shows a blank, aged, cream-colored page, likely an endpaper or flyleaf from an old book. The paper has a slightly textured appearance with some minor discoloration and small dark spots, possibly due to age or handling. A prominent vertical crease runs down the center of the page, and there are some faint, dark smudges and stains, particularly near the top and bottom edges. The right edge of the page is slightly darker, suggesting it was part of a bound volume.

Notice!

To feel absolutely protected against
Typhoid fever, Typhoid fever, Typhus
fever, Gastric fever, Bilious fever, Di-
phtheria, Pneumonia, Scarlatina, Summer Complaint,
Blood Poisoning, and all other forms of con-
sumption disease.

It is worth anything to be able to effectually
cleanse the blood in your entire system, to re-
new your youth, and invigorate all the organs of your
body; to permanently cure Constipation, Dyspep-
sia, Water-brash, and sour stomach? To re-
store audacity and stoppage of Gall ducts, to cure
Sick-headache and Biliousness, to cure Liver
complaint and Catarrhs of the bladder, to cure Kidney
disease of long standing? To be free from Gonorrhea,
Rheumatism, Neuralgia, Sciatica, and kindred
troubles?

Is it worth anything to enjoy good health, to
have a good appetite, and to sleep well? If all
these things are worth anything, you can secure
them almost for the asking. We know from long
experience that this statement is true, but we
do not know how to accept this statement unless
you have actual experience in the use of Parson's
Pills could bring a person to realize fully their
marvellous power to prevent and cure disease.
Are not you willing to take our word, to run the
risk of being deceived, so to speak, out of 25
cents, for the possibility of securing such a great
benefit as we know Parson's Pills would be to
you? If you should once become acquainted
with these Pills, you would never cease to be
grateful.

Parson's Pills were a wonderful discovery, and
there are none others like them in the world.
The information contained in the wrapper
around each box is worth many times the cost of
a box of the Pills. We use the purest drugs to
be found in the known world; between these, be-
lieve us, we have a powerful purgative, and a
purifying process known only to the chemist's art.
If families and individuals could only be made to
realize the marvellous power of Parson's Pills
in the prevention and cure of disease, and in
promoting the general health, a vast amount of
suffering and expense might be prevented.

Our business was established in 1810, and is the
oldest of the kind in this country. It is, there-
fore, likely that we would put forth an untruth-
ful or deceptive statement? Parson's Pills are
not a new discovery, but a long established fact.
We will send one box by mail, postpaid, for 25 cents
in stamps. Or we will send two boxes of Pills
and a beautiful engraving of President Cleve-
land and his Cabinet for 50 cents, all post-paid.
The engraving is 2 1/2 x 3 1/2, and retails for 50 cents.
We will send free to all who send us their ad-
dress a handsome illustrated pamphlet contain-
ing information of great value. If you order
mention this paper.

House St., Boston, Mass.

USE
Vegetable
Sicilian
RENEWER.

It is a medicinal preparation, and, of
the kind, an elegant and cleanly toilet
article. Its action upon the scalp is health-
ful. It nourishes the glands which support
the hair, and causes thin, dry hair to be-
come thick, soft, and vigorous. It restores
the color of your locks which have be-
come faded with age or disease; and
relieves and cures itching, caused by
humors of the scalp. Dr. George Gray,
Kashua, N. H., writes: "It gives me
pleasure to testify to the wonderful effects
produced by Hall's Vegetable Sicilian Hair
Renewer, as observed by me in very many
cases. It WILL CERTAINLY RESTORE
THE HAIR TO ITS ORIGINAL COLOR. It
cleanses the head of dandruff, and leaves
the hair soft, glossy, and beautiful." F. T.
Sandhein, 1010 Spruce St., Philadelphia,
Pa., writes: "After unavailingly trying
a number of preparations to prevent my
hair from falling out, and realizing that I
was fast becoming bald, I tried, as a last
resort, Hall's Hair Renewer. I have used
only four bottles of the Renewer, and am
perfectly satisfied that it is the best prepa-
ration in the market for checking the
falling out of hair, invigorating the hair
roots, and promoting a new growth."

As my strength was then even
so is my strength now," said Josha-
ua. So will every one who has been
troubled with weak stomachs
and worn out digestive organs. If
they will now and forever use J.
Monroe Taylor's Gold Medal Soda
or Saleratus—for wherever it has
made an acquaintance it "sticks
closer than a brother." It will be
your protector and shield, besides
always giving you nice, light and
digestible Breads, Biscuits, Pud-
dings, Cakes, &c. Try it. Most
of the merchants sell it. Depot
113 Water street, New York.

A whisker dye must be con-
venient to use, easy to apply, impos-
sible to rub off, elegant in appearance,

Louisville Leaf Tobacco Market.

There is but little change of price in any type or grade. Everything is either steady or firm, and we note an advance in medium and good dark leaf and burley lugs. The better grades have not been tested to any great extent. The progress of planting northward has been checked south of the central belt. The rain factor will proceed to loom as a matter of increasing interest, and its importance will increase, as usual, the longer it may prolong its absence. The crop ought to be picked by June 30, and there is no greater reason than usual in sight at present why it should not. A week later than this in 1885, 50 per cent. of the crop had been planted, but in the same week in 1884 it was also announced that only 10 per cent. had been planted. The latter crop was not only the larger, but also the largest on record. We quote 1884 tobaccos as follows for full weight packages:

	Dark and Heavy.	Burley.
First	\$1 75 @ 25	\$1 00 @ 25
Common lugs	3 75 @ 50	2 50 @ 50
Medium lugs	3 75 @ 50	2 50 @ 50
Good lugs	5 00 @ 50	3 50 @ 50
Common leaf	2 50 @ 50	2 00 @ 50
Medium leaf	2 50 @ 50	2 00 @ 50
Good leaf	2 50 @ 50	2 00 @ 50
Selections	2 50 @ 50	2 00 @ 50

Mrs. THOMAS KAMBOUCH died suddenly of heart disease at the residence of her daughter, Mrs. F. M. Curi, Cythiana.

A POST-OFFICE has been established at Gaw, Daviess County, and John Gaw commissioned postmaster.

A BLIND race horse called Dyeamite, ran into the fence at Latonia and was instantly killed. The jockey was slightly hurt.

HON. KARNON, of Carrollton, and James Streeter, of Milton, have been appointed store-keepers, and Simon Cox, of Shelby County, a gauger in the Sixth Kentucky Internal Revenue District.

NEWPORT is badly in need of a new Government building.

The nomination of Peter Nodder to be postmaster at Covington, has been confirmed by the Senate.

A HOUSE became frightened at a locomotive near Paducah, the other day, and dashed down the river. The driver, who was trying to hold him down an embankment into the Kentucky river. Edward Grant, of Frankfort, jumped from the engine and succeeded in swimming out with the lady, who is feared was badly injured.

Mrs. JANE THOMPSON and Mrs. Charles Riggs were out buggy-riding at Carlisle, when the horse became frightened and ran away. Mrs. Thompson jumped out and saved herself, but Mrs. Riggs was thrown over a bridge abutment, a distance of forty feet, into a creek, and her life is despaired of. She has only been married two months.

TWENTY years ago, in Grant County, G. W. Osborne and Samuel Anderson, sons of prosperous farmers, quarreled about the sale of sheep, and Anderson shot and killed Osborne. It was said to have been an unprovoked murder, and Anderson fled the State and disappeared. A short while ago a man forty years old, haggard and worn, returned to the scene of the crime, which had almost been forgotten, and gave himself up, saying he was Osborne's slayer. He was believed at first, but the matter was investigated and new indictments were made out, and the case has been called for trial.

FRANK BOURNE, a well-known Kentucky outlaw, who has been operating in Kentucky as a horse-thief for twenty-five years, has come to his end by his own hand. He cut his throat late the other night at the home of his old demerit mother, three miles west of Nicholasville. It was not known that he was in the county or State, as he has jumped several bail bonds, and a number of indictments are on the criminal court records. Since he was convicted, and got a new trial and several postponements, and finally a change of venue to Versailles, where he broke jail, he has not been heard from, except once in Missouri, where he eluded a mob.

JORNA LAMB was shot and killed by John Padgett at Polly's Bend, in Girard County. The difficulty originated over the ownership of a kettle, and after a knock-down and scuffle, Padgett shot.

Mrs. ELIZABETH SPEER, aged fifty, fell down a pair of stairs at her home in Louisville, sustaining terrible injuries.

JAMES BAXTON, a brute who inveigled a little girl named Vonderheid into a deserted house in Louisville, on the 14th of April and bit her cheek and took improper liberties with her without accomplishing his hellish design, was convicted and sentenced to the full limit of twenty years.

WM. MOON, aged sixteen years, who lived with his father, Thomas Moody, just across the Bath line in Rowan County, met a horrible death near his home the other evening. He was riding a horse, with the plow-gears on him, to work in a cornfield, when the animal suddenly became frightened, and running away threw his rider, one of whose feet became entangled in the gearing, and with his head and shoulders on the ground was thus dragged a distance of a half mile, with the horse going at full speed. In this condition he survived until dashed against a log which lay in his way, which put an immediate end to his life. The skull was crushed and the body and face fearfully bruised and lacerated. The horse was supposed to be perfectly gentle, as he had never been known to scare before.

At Louisville, the other morning, Alexander Long, a well-known blacksmith, aged fifty-one years, was discovered bathing his feet in the basin of the west fountain in the court-house yard. When approached he exhibited signs of insanity, and was shortly afterward taken before a jury in the circuit court. As he entered the bar he said he had been in the habit of saying the Lord's Prayer every time he entered a court-room, and asked Judge Jackson's permission to repeat it. Without waiting he began to repeat the prayer in a reverent tone, and the scene was a most unexpected and in some respects ludicrous one. When he got through he addressed the jury, and quickly convinced them of his insanity. He was ordered to Anchorage Asylum.

The condition of the corn crop in this State is reported at 80 per cent., and the acreage at 88, by the Commissioner of Agriculture. There is general complaint of the "cut-worm," many of the crops having been planted the second and some the third time. The condition of the wheat crop is 102 per cent., and the acreage 88 per cent. The fall-storm of the 12th of May did much damage to wheat, rye, barley and hemp crops in the counties of Fayette and Woodford.

The court-house at Covington is receiving an overhauling and renovation.

AN OPIUM EATER'S STORY.

Crawling Over Red Hot Bars of Iron in His Fearful Torment—A Scientific Investigation and Its Results.

Cincinnati Times-Star.

"Opium or death!" This brief sentence was fairly blazed into the ear of a prominent druggist on Vine street by a person who, a few years ago well off in to-day a hopeless wreck!

One can scarcely realize the sufferings of an opium victim. De Quincy has vividly portrayed it. But who can fully describe the joy of the rescued victim!

H. C. Wilson, of Loveland, O., formerly with March, Harwood & Co., manufacturing chemists of St. Louis, and of the well-known firm of H. C. Wilson & Co., chemists, formerly of this city, gave our reporter a bit of thrilling personal experience in this line.

"I have crawled over red hot bars of iron and coals of fire," he said, "in my agony during an opium frenzy. The very thought of my sufferings freezes my blood and chills my bones. I was then eating over thirty grains of opium daily."

"How did you contract the habit?"

"Excessive business cares broke me down and my doctor prescribed opium. That and the very nine-baths of calomel commenced. When I determined to stop, however, I found I could not do it."

"You may be surprised to know," he said, "that two-fifths of the slaves of morphine and opium are physicians. Many of these I met. We studied our cases carefully. We found out what the organs were in which the appetite was developed and contained, that no victim was a demoralized condition of those organs."

"The hope of a cure depended entirely upon the degree of rigor which could be imparted to them. I have seen patients, while undergoing treatment, compelled to work to opium again to deaden the horrible pain in those organs. I marvel how I ever escaped."

"Do you mean to say, Mr. Wilson, that you have conquered the habit?"

"Indeed I have."

"Do you object to telling me how?"

"No, sir. Sending the matter with several opium-eating physicians, I became satisfied that the appetite for opium was located in the kidneys and liver. Our next object was to find a specific for restoring those organs to health. The physicians, much against their code, addressed their attention to a certain remedy, and became thoroughly convinced on its scientific merits alone that it was the only one that could be relied upon in every case of disordered kidneys and liver. I thereupon began using it, and supplementing it with my own specific treatment, finally got fully over the habit. I may say that the most important part of the treatment is to get those organs first into good working condition, for in them the appetite originates and is sustained, and in them over ninety percent of all other human ailments originate."

"For the last seven years this position has been taken by the proprietors of that remedy and finally it is becoming an acknowledged scientific truth among the medical profession; many others have, ever, do not openly acknowledge it, and yet, knowing they have no other scientific specific, their code not allowing them to use it, they rely upon the quiet and preferable it in their own bottles."

"As I said before, the opium and morphine habits can never be cured until the appetite for them is routed out of the kidneys and liver, and lived everywhere. I have experimented with everything, and as the result of my studies and investigation, I can say I know nothing can accomplish this result but Warner's safe cure."

"Have others tried your treatment?"

"Yes, sir, many; and all who have followed it fully have recovered. Several of them who did not first treat their kidneys and liver for six or eight weeks, as I did, were completely failed. This form of treatment is always insisted upon for all patients, whether treated by mail or at the Loveland Opium Institute, and supplemented by our special private treatment, if required."

Mr. Wilson stands very high wherever known. His experience is only another proof of the wonderful and conceded power of Warner's safe cure over all diseases of the kidneys, liver and blood, and the diseases caused by derangements of those organs. We may say that it is very flattering to the proprietors of Warner's safe cure that it has received the highest medical endorsement and, after persistent study, it is admitted by scientists that there is nothing in materia medica for the restoration of those great organs that equals it in power. We take pleasure in publishing the above statements coming from so reliable a source as Mr. Wilson, and confirming by personal experience what we have time and again published in our columns. We also extend to the proprietors our hearty congratulations on the results wrought."
